Short Description

VTuber Plus is an interactive PC application that makes live streaming more engaging and fun. It allows viewers to interact with VTubers in real time using props, sound effects, animations, and rewards. Used daily by streamers worldwide, VTuber Plus helps creators strengthen their connection with audiences.

Long Description

VTuber Plus is a powerful PC application designed to give VTubers and streamers new ways to interact with their audience. With customizable features such as props, animations, sound

effects, and reward systems, viewers can directly influence live streams and become active participants in the entertainment.

First released on January 21, 2022, VTuber Plus quickly gained popularity across platforms like Twitch, becoming a go-to tool for creators who want to stand out and engage their fans. Priced affordably at just \$4.99, it has lowered the barrier for streamers to add interactivity without needing complex technical setups.

Over time, VTuber Plus has expanded with regular updates and new features shaped by community feedback. With more than 12,000 purchases, 30,000+ downloads, and 150+ daily active users, it has established itself as one of the most widely used VTuber interaction tools available today.

Key Stats & Milestones

- **12,000+ purchases** across Steam and itch.io
 - **30,000+ total downloads**
 - **150+ daily active users worldwide**
 - Continuous updates since 2022, developed in collaboration with the community
